

Erick Hernandez

FRONT-END DEVELOPER

Profile

I'm a Front-end Developer who specializes in building (and occasionally designing) exceptional digital experiences. Currently, I'm working as a [freelance developer](#), focused on building accessible, human-centered products.

Hello! My name is Erick Hernandez and I'm from Mexico City.

I enjoy creating things that live on the internet. My interest in web development started back in 2018 when I decided to try editing custom Tumblr themes — turns out hacking together a custom reblog button taught me a lot about HTML & CSS!

Fast-forward to today, and I've had the privilege of working as a freelance developer at [an advertising agency](#), [a start-up](#). My main focus these days is building accessible, inclusive products and digital experiences for a variety of clients.

Employment History

Freelance Front-End Developer, Upstament, 245 8th Avenue #1030, NYC 10011

JANUARY 2020 — MAY 2021

Developed and maintained code for internal and client websites primarily using HTML, CSS.

Sass, JavaScript, Typescript, React JS.

Tested sites on various browsers and devices to ensure cross-browser compatibility and mobile responsive and mobile responsiveness.
