

Erick Hernandez

SOFTWARE DEVELOPER

Profile

My name is Erick Hernandez and I'm from Mexico City.

I enjoy creating things that live on the internet. My interest in web development started in 2018 when I decided to try building web and mobile apps. Turns out hacking a custom re-blog button together taught me a lot about coding!

Fast-forward to today, and I've had the privilege of working as a freelance developer at [an advertising agency](#), [a start-up](#). My main focus these days is building accessible, inclusive products and digital experiences for a variety of clients.
